PROFILE SUMMARY

As a beginner MERN stack developer, I'm eager to apply my foundational skills in MongoDB, Express.js, React, and Node.js to create dynamic and responsive web applications, while continuously learning and growing in this exciting field.

PROJECT

Project - 1
URL SHORTNER
feburary 2024
(ReactJS,NodeJS,MongoDB)

Developed a URL Shortener application using the MERN (MongoDB, Express.js, React.js, Node.js) stack, aimed at efficiently shortening long URLs into shorter, more manageable links. This project involved the creation of both front-end and back-end components to provide a seamless user experience.

Project - 2
BUDDY AI
feburary 2024
(Figma)

- I created Buddy AI, a friendly generative AI, and designed its UI using Figma for an intuitive user experience.
- Buddy AI is like having a pocket-sized friend in your phone.
